**SECTION 5: FIRE FIGHTING INFORMATION**

Suitable Extinguishing Media	Not flammable. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray, dry chemical, alcohol-resistant foam, or carbon dioxide.
Hazardous Combustion Products	Carbon monoxide. Thermal decomposition can lead to irritating gases and vapors.
Fire Fighting Methods	Evacuate area of personnel. Wear protective NIOSH-approved self-contained breathing apparatus. Remain upwind of fire to avoid hazardous vapors and decomposition products. Use water spray to cool fire-exposed containers. Run-off of large quantities or product from fire control may cause pollution. Contact appropriate agencies.
Fire and Explosion Hazards	None known.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

Steps to be Taken in Case Material is Released or Spilled	Avoid contact with skin and eyes.
Small Spill	No special clean-up procedure is necessary for small (less than 1 gallon) spills. Flush spill area with water. Wear rubber gloves.

Large Spill Use personal protection recommended in Section 8. Isolate area and deny entry to unnecessary and unprotected personnel. Dam spill and absorb with earth, sand, or similar material. Place in non-leaking containers. Dispose of collected material according to local, state, and federal regulations. Flush residue with large amounts of water. Avoid direct discharge to sewers and surface waters.

**SECTION 7: HANDLING AND STORAGE**

Advice on Safe Handling Avoid contact with skin, eyes, and clothing. Use with adequate ventilation. Avoid breathing vapors or mist. Do not eat, drink, or smoke in work area. Wash hands thoroughly after use. Wear personal protective equipment. Remove and wash contaminated clothing before re-use.
